

Item description

Function:

“Building Automation and Control Networks” (BACnet®) is a data transfer protocol for building automation that simplifies communication between products from different manufacturers. The WAGO Touch Panel can be operated as a BACnet building controller and supports the B-BC device profile with all major BACnet objects and interoperability building blocks (BIBBs). The device communicates via BACnet/IP and offers the functionality of a BACnet client and BACnet server.

To use BACnet/IP, it is necessary to equip the device with a license.

The BACnet network is configured using the WAGO BACnet Configurator and the *e!COCKPIT* Engineering Software.

Benefits:

- Use the device as a BACnet Building Controller (B-BC)
- Control and detect distributed I/O signals from WAGO BACnet/IP Couplers via BACnet fieldbus protocol
- Data exchange with other BACnet devices as a BACnet client or server

Installation:

Enter the license into *e!COCKPIT*, assign it to a device and load both the license and project into the controller. No other steps are required.

Technical Data:

See “Protocol Implementation Conformance Statement” (PICS)

Compatible devices:

762-43xx/8000-002; Touch Panel 600 Standard Line; PIO 3 hardware configuration
762-53xx/8000-002; Touch Panel 600 Advanced Line; PIO 3 hardware configuratio

xx is a wildcard; the license applies to all Touch Panel sizes.

Subject to changes. Please also observe the further product documentation!

Data Notes

Note	Number of BACnet objects: without limitation – but depends on the application used
------	--

System requirements

Other required software	<i>e!COCKPIT</i> version: V1.6.1
-------------------------	----------------------------------

Software data

Supported devices	762-43xx/8000-002: Touch Panel 600 Standard Line; Hardware configuration PIO 3 762-53xx/8000-002: Touch Panel 600 Advanced Line; Hardware configuration PIO 3 xx is a wildcard; the license applies to all Touch Panel sizes.
-------------------	---

Supported fieldbuses	BACnet/IP; without limitation of the BACnet objects but depends on the application used
----------------------	---

Delivery

Delivery type	License certificate via email (<i>e!COCKPIT</i> already contains the software itself)
License type (note)	Single license allows installation on one device. One license per device is required.
Note on license type (2)	A PC with both Internet connection and <i>e!COCKPIT</i> may be required for license activation.

Commercial data

PU (SPU)	1 Stück
GTIN	4055143941150
