

Servo Hub - Lightweight (Hitec Standard)

ROB-12543

© images are CC BY-NC-SA 3.0

Description: These lightweight servo hubs are ideal for attaching wheels, gears, or any heavy duty servo horns directly to your C1 Hitec servo spline. These aluminum servo hubs have a diameter of 1", a width of 0.17", and utilize the 0.77" hub pattern.

Actobotics is a robotics building system based around extruded aluminum channels, gears, precision shafts, and ball bearings. Thanks to the two standardized hole patterns, nearly all Actobotics components can be intuitively connected together. The wide range of components makes building complex electromechanical prototypes or finished projects a reality.

Dimensions:

- Diameter - 1"
- Width - 0.17"
- C1 Hitec Spline
- 8x 6-32 Screw Holes
- Hub Pattern - 0.77"
